Projects

HalaX – Medical Billing Optimization Platform [LIVE]   **Aug, 2023 – Till Now**

- Developed a system to enhance medical billing performance by integrating data from platforms like eCW, CGM, Tebra, and SIS through Excel imports and APIs. Standardized and transformed diverse data structures into a unified format compatible with HalaX. Implemented real-time broadcasting and job batching queues using Redis to ensure efficient data synchronization and claim generation.

Role & Responsibilities:
- Led end-to-end development, including R&D, system architecture, integration, and continuous enhancement.

Tech Used: **Angular, Laravel, MySQL, Redis.**

Desk – Issue Tracking & Resolution System [LIVE]   **Oct, 2023 – Feb, 2024**

- Built a ticket-based issue tracking system enabling team members to raise, assign, and resolve issues effectively. Introduced a scheduling module to manage task reminders and follow-ups.

Role & Responsibilities:
- Full-stack developer responsible for architecture, development, and enhancement of features.

Tech Used: **Angular, Laravel, MySQL.**

SSO – Secure Authentication Service [LIVE]   **Jan, 2023 – Feb, 2024**

- Developed a secure Single Sign-On (SSO) system using Laravel Passport to enable centralized authentication across multiple internal applications.

Role & Responsibilities:
- Handled R&D, system design, and coordinated integration efforts across teams.

Tech Used: **Angular, Laravel, MySQL.**

Restaurant Management Site (Service)   **Nov, 2022 – May, 2023**

- Improved and maintained an existing food ordering system.
- Handled administrative side changes and system testing/debugging.

Tech Used: **PHPJabbers scripts, JavaScript, JQuery, Bootstrap, PHP, MySQL.**

Experience

Full Stack Developer   **Aug 08, 2023 – Till Now**

Pracma IT Solutions Pvt. Ltd., Chennai
